I found the Cambridge FCE course really helpful once I get to understand how deep we would go in our writing, speaking or listening which is essential for communication with other people and also improve in our jobs. In other words I strongly advice you to take the FCE course in NSEC. They're supper efficient and I had a brilliant teacher. It's like you're studying but with a family environment which heaps in the learning process.

I am really satisfied with having this class, which is preparation for the Cambridge FCE exam, which opened first time in April 2018. The teacher, Mary was always enthusiastic and energetic, so I was able to take her classes enthusiastically and learn with fun. I was able to get extra homework when I requested. She was always dealing with my requests even if she was so busy. The Cambridge exam was so difficult for me, but through preparation for the getting the certificate, I could learn many English expressions.
